Black Rhinos dream is to have 1 retreat every month that allow for local creative artists to perform, gather, assist their growth and collaborate with one another. The mission of Black Rhino is to help national artists gather together and allow for old, new and national artists to re-hearse, edit their work, sleep, eat and have somewhere they can stay to grow. The value of Black Rhino is to bring in international, young, old artists to collaborate and be inclusive with one another.
